CORE SKILLS

- Content preparation and scheduling
- Instagram and X/Twitter support
- Caption and profile review
- Creator workflow coordination
- Account and campaign operations
- Browser and workflow automation
- Testing, debugging and documentation
- Team coordination and leadership

TOOLS

JavaScript · TypeScript · Next.js · React · Node.js · Playwright · Supabase · SQL · GitHub · Vercel · Python · Cursor · Claude · ChatGPT · Canva · CapCut · Excel · Google Sheets

EDUCATION

B.Sc. Rehabilitation Science
Special Education
University of Jos, 2020

Product Management Certification
Enevolab, 2025

National Youth Service Corps
Completed in Abuja, 2022

PROFILE

Content, operations, and automation professional with experience supporting creator accounts, social media workflows, account management, team coordination, and technical systems. Comfortable using Instagram and X/Twitter, preparing and scheduling content, reviewing captions and profiles, improving posting workflows, and working independently across multiple accounts. Experienced in testing, maintaining, and improving automation that reduces repetitive work.

EXPERIENCE

CREATOR OPERATIONS, CONTENT SUPPORT & AUTOMATION

Confidential creator-business environments | 2022 - 2026

- Progressed from customer-facing work into team coordination, account management, creator operations, and technical support.
- Supported Instagram and X/Twitter workflows through content preparation, scheduling, caption review, profile checks, posting coordination, and multi-account organization.
- Managed creator workflows, campaign planning, schedules, reporting, priorities, and day-to-day account coordination.
- Supported audience messaging, sales and retention processes, while helping teams maintain consistent communication and service standards.
- Coordinated teams of 5-10 people and coached about 15 people over time, reviewing progress and helping resolve operational issues.
- Contributed to building, testing, maintaining, and improving automation workflows; investigated bugs, documented problems, and supported reliable releases.

SELECTED PROJECTS

Creator Workflow Automation System

Contributed to the development and maintenance of an internal system for organizing creator collaborations, preparing content, scheduling posts, managing captions, and reducing manual work.

Next.js · TypeScript · Playwright · Supabase · Vercel · Telegram

Creator Mass Message Scheduling System

Built and maintained scheduling and message-selection workflows for publishing times, recipient and exclusion lists, CSV-based rotation, repeat prevention, and activity logging.

Python · Playwright · AdsPower · CSV · Browser Automation

Trading Signal Monitoring System

Worked on monitoring logic, automation flow, testing, troubleshooting, maintenance, and documentation for a system designed to surface defined market signals.

Python · APIs · GitHub · Data Monitoring · Automation

STRENGTHS

Fast learner · Reliable remote worker · Process-minded · Clear communicator · Comfortable working independently · Strong attention to detail
